In some instances, however, this was not the case, and as it happens, an enterprising Pennsylvanian has secured a "first prizo" Fara "plan for ventilating hospitals," which should properly be credited to our ingenious f-llow fownsman Mr. Wm. H. Bliss. This admirable plan, it is alleged, was applied in a St. Louis hospital, in 1862, by the party who has obtained such recognition of his services, but the records prove conclusively, that Mr. Bliss applied the invention in the he spitals at Portsmouth Grove, as early as 1862, when they made so favorable an intpression upon the Surgeon General that he ordered the plan to be adopted at New York and Philadelphia, and subsequently it was introduced at St. Louis.

Although the harvest of proise bas been resped by another, Mr. Bliss has the satisfaction of knowing that his services and talents have proved of inestimable benefit to thousands of sick and suffering soldiers, sabling greatly to their comfort, and restoring to the service of their country him Dent. vii: 6., "For thou art a holy people dreds, who otherwise would have follon unto the Lord thy God : the Lord thy God

The difficult undertaking of rendering Old Trinity Church comfortable in winter, Las been committed to Mr. Bliss, and many are disposed to think that failure will allend these so-called "new-fangled notions," but we advise all who are interested in the matter, to suspend judgment until Mr. Bliss has had a fair chance to develop the practical operation of his system. His mechanical details are the emmunations of his own inventive genius, but the general philosopaical principles upon which they are based, are a old as Galileo or Archimedes, and the leasty criticisms he may meet with, are but repetitions of what those ancient worthies were subjected to, in establishing the first principles of science

The services were conducted by Rev. Mr. Malcom, who opened them by an invocation and reading the one hundredth psalm. Appropriate hymns, scripture lessons, prayers, and chant followed. The proclamations of President Johnson, and of Govenor Burnside, appointing the day, were also read.
